SAFETY INSTRUCTIONS
**Fitting A Sanding Spindle**

1. Measure the depth into the hole or below.  
2. Using the required drill bit, drill the required depth into the wood or below.  
3. Insert the sanding spindle into the hole or below, ensuring it is secure.  
4. Repeat the process on the other side of the table.

**Fitting the Basic Table**

1. Compress the front edge of the table to ensure a secure fit.  
2. Position the table over the workpiece, ensuring it is flat.  
3. Insert the table into the table slot, making sure it is aligned correctly.  
4. Secure the table in place using the provided screws or bolts.  
5. Ensure the table is level and stable.  
6. Test the table for functionality before using.  
7. Check the table for any issues or adjustments needed before use.  
8. Remove protective paper and any components before operating or removing.
