

**Craig's
Woodworking
Benches**

Main Bench

- Top made from cupboard in kitchen - taken out to make room for bigger fridge.
- Laminated surface is great
- Two clamps – both bought at half price sales.
- Wood clamp also mounts belt sander
- Bench drill bolted to top
- Side bench to hold junk.

Main Bench (cont)

- Body made from old bed (gifted)
- Rigid – double bolt, braced all round
- Ballast – heavy base, shelf, storage
- Good bench clamps – wood and metal

Second Bench

- Gifted
- Subject to weather, but still solid
- Rigid – diagonal board at back and angle irons
- Heavy – hardwood body with shelf and storage
